SARS-CoV-2 Research

The SARS-CoV-2 coronavirus has a ~29.9 kb positive-sense RNA genome that contains as many as 29 open reading frames. There are 16 nonstructural proteins (nsp), four structural proteins, and perhaps six or more accessory proteins.

Influenza Virus Research

GeneTex has expanded its already extensive reagent catalog for influenza virus research with a series of recombinant rabbit monoclonal antibodies targeting the influenza A virus (FLUAV) and influenza B virus (FLUBV) nucleoproteins (NPs). These high-quality antibodies are validated for use in lateral flow assay.

Recombinant NPs derived from influenza A virus (A) and influenza B virus (B) were detected by lateral flow assay using the indicated recombinant rabbit monoclonal antibody pairs and proteins.

Importantly, at least sixteen FLUAV strains and FLUBV strains can be detected by ELISA, western blot and immunohistochemistry, including FLUAV H1N1 and H3N2 subtypes. These recombinant antibodies showed higher sensitivities compared to a competitor's clones.

Indirect ELISA assays exhibit the comparative sensitivities of (A) FLUAV NP antibodies GTX636318, GTX636247, and GTX636199, as well as of (B) FLUBV NP antibodies GTX636099, GTX636100, and GTX636194, compared to a competitor's clones.

Detection of FLUAV and FLUBV NPs in sELISA assays. Recombinant NPs derived from different strains of influenza A virus and influenza B virus were assayed using (A) FLUAV NP antibodies GTX636318 and GTX636247 (as a pair), or (B) FLUBV NP antibodies GTX636099 and GTX636100 (as a pair).

Analysis of influenza virus strains. Sandwich ELISA detects NPs in lysates from cells infected with different strains of (A) influenza A virus subtype H1N1 or (B) subtype H3N2 using FLUAV NP antibodies GTX636318 and GTX636247 (as a pair), or (C) influenza B virus using FLUBV NP antibodies GTX636099 and GTX636100 (as a pair). (D) The FLUAV NP antibody GTX636199 recognizes NPs of various FLUAV subtypes in infected-cell lysates by western blot.

Dengue Virus Research

Dengue virus (DENV) belongs to the genus *Flavivirus* and possesses a positive-sense RNA genome of approximately 10.6 kb that contains a single open reading frame encoding a polyprotein. This is cleaved by cellular and viral proteases into three structural proteins (Capsid protein C, Membrane protein M, Envelope protein E), and seven nonstructural proteins (NS1, NS2a, NS2b, NS3, NS4a, NS4b, NS5).

Zika Virus Research

Single-stranded (+) RNA

Zika virus (ZIKV) is another flavivirus with a positive-sense RNA genome of approximately 11 kb encoding a single open reading frame that generates a polyprotein. The polyprotein is cleaved into three structural (Capsid, precursor Membrane or Membrane, Envelope) and seven nonstructural (NS1, NS2a, NS2b, NS3, NS4a, NS4b, and NS5) proteins.

Hepatitis Viruses

There are five major types of hepatitis virus, including types A, B, C, D, and E, with types A, B, and C being the most common. There is also a Hepatitis G virus. These viruses are not related, but primarily attack the liver and cause acute or chronic hepatitis. GeneTex offers a broad selection of antibodies for hepatitis virus research.

Porcine Viruses: PCV2, PRRSV, and ASFV

PRRS virus M protein

PCV2 Capsid

ASFV p54 [GT853]

Porcine viruses cost the world's swine industry billions of dollars annually, with porcine circovirus type 2 (PCV2), porcine reproductive and respiratory syndrome virus (PRRSV), and African swine fever virus (ASFV) being among the most important. GeneTex has developed a series of well-validated antibodies against various porcine virus proteins.

PCV2 Antibodies

Product Name	Clonality	Applications	Cat. No.
Porcine circovirus type 2 / PCV2 Capsid antibody	Rb pAb	WB, IHC-P	GTX128121
Porcine circovirus type 2 / PCV2 Capsid antibody	Rb pAb	WB, IHC-P, IHC	GTX128120
Porcine circovirus type 2 / PCV2 Capsid antibody [GT863]	Ms mAb	WB, ICC/IF, IHC-P	GTX634210
Porcine circovirus type 2 / PCV2 Capsid antibody [GT972]	Ms mAb	WB, ICC/IF	GTX634211
Porcine circovirus type 2 / PCV2 Replicase antibody	Rb pAb	WB, ICC/IF, IHC	GTX133638
